

THE DEPARTMENT OF CHEMISTRY AT COLUMBIA UNIVERSITY
THE FALL 2020 COLLOQUIUM SEMINAR SERIES

9/17/2020 (at 10:00am EDT)

THE STORK LECTURE

*Homogeneous Catalysis for Organic Synthesis and
Polymer Synthesis*

Kyoko Nozaki

University of Tokyo

Hosted by Colin Nuckolls

10/1/2020 **THE PADWA LECTURE**

Hosea Nelson

UCLA

Hosted by Tom Rovis

10/8/2020 *Photogenerated Radical Pairs as Spin Qubits:
Exploiting Quantum Entanglement of Electron Spins*

Michael Wasielewski

Northwestern

Hosted by Colin Nuckolls

10/13/2020 (Tue at 1:00 EDT)

*Discovery and Optimization of Enantioselective
Catalysts Through Chemoinformatics*

Scott Denmark

University of Illinois

Hosted by Tom Rovis & EROS (Encyclopedia of
Reagents for Organic Synthesis)

10/22/2020 **Jenny Yang**

UC Irvine

Hosted by Jonathan Owen

11/5/2020 **John Straub**

Boston College

Hosted by Bruce Berne

11/12/2020 *Electron (De)Localization in f-Element
Systems: From Fundamental Questions to QIS Design
Principles*

Henry S. La Pierre

Georgia Institute of Technology

Hosted by Gerard Parkin

11/19/2020 **Katherine Mirica**

Dartmouth College

Hosted by Luis Campos

12/3/2020 **Wei Xiong**

UCSD

Hosted by Xiaoyang Zhu
